NEW AFAM CHAIN

PRODUCT INFORMATION

AFAM A520MX6 CHAIN

NEW A520MX6

As you know, we are constantly looking for ways to improve our products, in this regard we have developed a new MX chain: A520MX6.

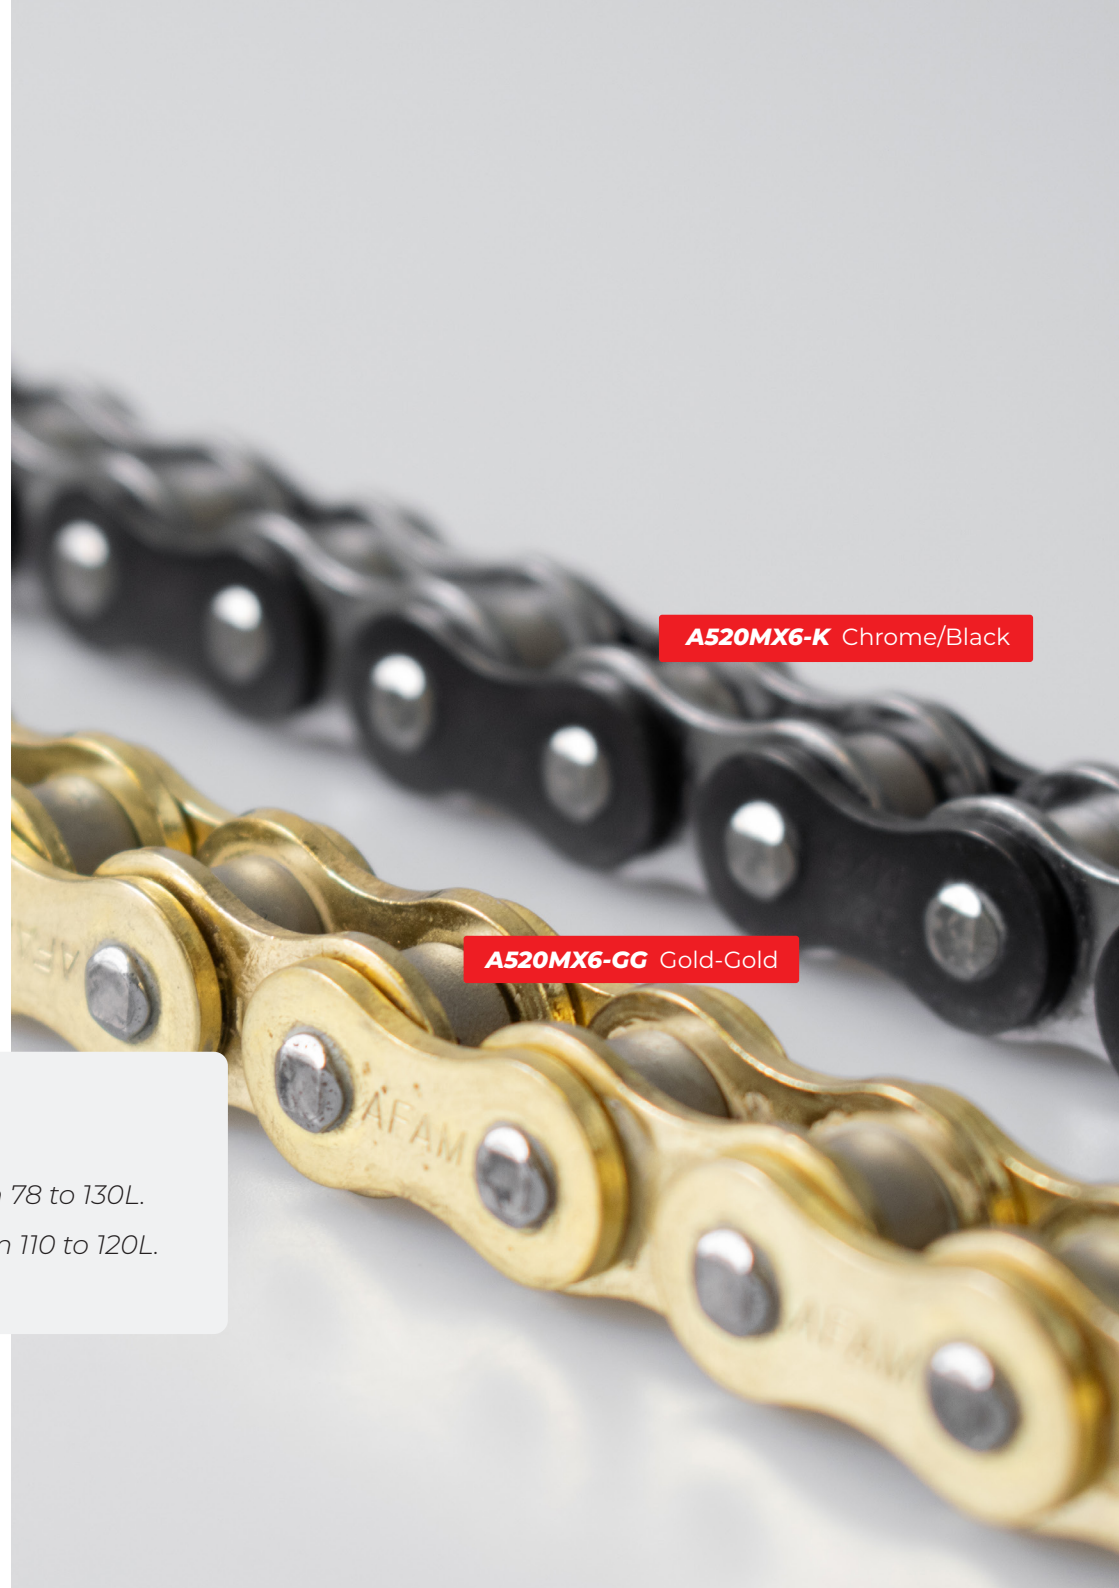

This chain will replace the A520MX5-G.

Specially designed for motocross and MXGP level.

The A520MX6 will be available in 2 finishes:

- **GG** (Gold inner plates and Gold outer plates) *available from 78 to 130L.*
- **K** (Chrome inner plate and Black outer plate) *available from 110 to 120L.*

www.afam.com

**AVAILABLE IN
BLACK AND
GOLD-GOLD**

TECHNICAL

Apart from the look,
3 major improvements have been made:

- Increase of the Push out Force between the pins and the outer plates.
- Increase of the Push out Force between the bushes and the inner plates. These 2 elements will limit in a very important way the phenomena of hard points on your chain and what will allow you to keep a very good flexibility throughout the use.
- The most significant improvement is the increase of the fatigue strength, we have increased it by about 20% compared to the A520MX5, this means that your chain will stretch less and less quickly.

PRODUCT INFORMATION

AFAM A520XRR3 CHAIN

A520XRR3-K

We have also added an extra finish to our A520XRR3-G chain.

From now on you will be able to buy this chain with a black finish on the outer plates and chrome on the inner plates, this new chain is the A520XRR3-K and will be available from 72 to 130L.
